

## **Experience Hope**

**It has been said that thru powerful acts of hope we can see the future. Our hopes can help us achieve a brighter future for ourselves and others.**

**What is hope one might ask?**

**Hope is the knowledge that eliminates fear; knowledge to see without darkness. Hope opens doors of unlimited success. Hope is the demonstration of fearlessness. Hope gives comfort that our long desired dreams are just around the corner. Hope is the inspiration that gives strength from wisdom. Hope overrides doubt and fear, and allows us to sleep peacefully at night. It drives us to work each day. Walks us toward greener pastures; helps us climb higher mountains: along uncertain roads of life.**

**Each one of us has seen hope in action! In books, movies, even with people that we know. We have seen the glow of hope; knowing all is well. Regardless of the imperfections in life; hope allows us to grow with each new day. Hope helps us to roll with the flow of life. Hope combined with faith in each other is a vehicle for change, joy and happiness.**

**To experience hope we need to use our imagination; imagination that wants to see ourselves and the future differently. How we choose to demonstrate our hope will have a great impact on others. Finding our hope and giving this hope to others, is the most rewarding experience in life.**
